**New English File Eoi Exam Power Pack Intermediate ##VERIFIED##**

Englist Hello dear I am new on this site. I got a question paper to answer FCE First I passed into IELTS, and I have been playing around with this paper, reading over several times, I know I won't be getting much for my wrong answers, this question paper has 7 sub sections (A-G) if you can read the question, can you please tell me how many alternatives you would give for each sub section? Hello, thanks for your question. I am sorry, I can't give you a specific answer for each sub section, as it depends on the time you have and your focus on the part. (eg: If you are a very detailed reader, you may need more options). As per the possible alternatives, read the question carefully and make sure your answer is the best you can, so that you can aim for as many points as you can. The question has 90 mins. That means, you have minimum time of 30 mins for each section. Thank you for your question. If you have the answer sheet, please check if it gives you all the choices and the explanation for each one. If you could send me the answer sheet, I'll tell you the points you could have. Thanks again. IELTS listening test. IELTS listening test with answers Public speaking listening test with answers Listeneing test with answers - syllabus Students got the test. We need to evaluate their speaking and listening skills. Can you help us? Hi, There is a file of a six hour listening test and there are 100 questions. I need to answer the questions and for those that I do not know the answer, I need the best alternative. I think I have completed 90% of the test and now I am stuck on the 9 remaining questions. I know that this test has two sections (listening and speaking) I do not know what the best alternative is for the listening. We are a team of 15 students and they divided the 60 questions into 5 groups and they are in a separate file. I am doing listening test. There are two parts on the listening test with answer and there is only one question paper. I need to check my level of listening. I am at the 9th grade. Please let me know if there is a trick to answer the test without using the answer. How many alternatives can I give for this question?

The headline of the invitation was 'Start Your Business' and it seemed like everyone in the room had at least a part time job. Everyone was keen to tell me how they made money in a day job but started their business on a whim, or an idea they'd been following for a while and never did anything about. One man confessed to me that his business was the result of a bedtime conversation with his wife. The room was filled with people who could write and market their own books, or tweets, or blog posts. We were given samples of what people could make and how they could increase their impact by displaying their pictures on their website. I was there to try and help people
